PROFILE

I am a detail-oriented and customer-focused professional with experience in sales and client relations. Currently, I work as a Sales Specialist/Manager at VLV, where I assist customers, manage sales processes, and build strong relationships with clients. My experience has strengthened my communication, negotiation, and problem-solving skills, as well as my ability to work in a fast-paced environment and achieve business goals.

In addition, I have a strong foundation in web technologies, including HTML, CSS, JavaScript, React, and Redux, gained through my studies at NPUA and SmartCode Development School. This combination of technical knowledge and sales experience allows me to adapt quickly, learn new tools efficiently, and contribute effectively to both customer-oriented and technology-driven environments.
